

# NOVA MAGNETIC LINEAR LIGHT

TECHNICAL SHEET  
NV-LN-1012

## Picture

## SPECIFICATIONS

|                             |                   |
|-----------------------------|-------------------|
| Product Code                | NV-LN-1012        |
| Power                       | 12W               |
| Input Voltage               | 48VAC             |
| Color Temperature           | 3000K-4000k-5000k |
| Beam angle                  | 135°              |
| Driver Chip                 | Sanan             |
| Efficacy                    | 60 lm/w           |
| Luminous Flux               | 720 lm            |
| Rated LED Life              | 30000 h           |
| CRI                         | 90                |
| Operating temperature range | -20 < TA < +40    |
| Installation                | 4.5 Series Track  |
| Dimension                   | 1000mm*4.5mm*15mm |
| IP Rating                   | IP20              |
| Warranty                    | 3 Years           |
